Pastor Johny

We want to introduce a new ministry PWH is partnering with in Haiti. Their focus is children/youth evangelism and discipleship. Seeing the impact of the gangs and the instability of the government, Pastor Johny and his team have seen the need for a ministry which focuses on sharing the gospel, teaching the Bible, and encouraging youth to share the good news with family and friends. We will share more information about this new partnership soon.

Church Leaders

New Year's Eve Thanksgiving Servoce

We praise God for His grace and love toward us. On December 30, 2025, all the AFCA Church leaders met together to celebrate the end of the year. We praised the Lord together. It was also a time of recognition, congratulations, and encouragement for the leaders. It was a meaningful and enriching time for all of us.

On December 31, 2025, the church organized a thanksgiving service from 8:00 p.m. to 12:30 a.m. This is an annual service which included baptisms, worship, testimonies, a special offering, and the preaching of the Word of God.

Due to inflation and unstable economy, new school sponsorships will be $40/month per child. If you have the means, we ask you to increase your sponsorship to $40. However, this is a challenging time in our economy so if you cannot, we understand. Please continue send your present monthly support.

Christmas Letters

Be looking in your emails for Christmas letter from your sponsored child. We hope to receive them from Haiti soon.

Construction Projects

In the past US work teams would travel to Haiti and work alongside Haitians to complete projects like these below. We praise God for the donations from Sister Churches and Corporate Partnerships.

Vocational School

The construction of the vocational school building continues. Wrought iron windows and doors have been completed.

Silo Church: Sanitary Block

We are also building a sanitary block for the church. This infrastructure is designed to provide safe, hygienic toilet and washing facilities where standard piped sewage systems are absent. The pictures show the septic tank for this sanitary block.
